Wet Scrubber Features

Wet scrubbers are designed to remove water-soluble compounds from exhaust streams. Advancelab manufactures two types:

MiniLab® - a closed system comprising of a scrubber unit mounted above the fume hood and a holding tank below

MaxiLab® - a stand-alone unit that can be remotely located

MiniLab® can be utilised for individual hoods only. They allow flexibility and are convenient to install.

MaxiLab® can be used for a series of hoods and are available in two sizes for this application.

Units can be manufactured in PVC or PP sheet utilizing "hot weld" fabrication. All units come with a chemical resistant pump, sanitary and water connections and a skid tray where specified.

Demister

Auto water top-up

Chemical resistant pump

Full cone nozzles

PP injection moulded balls for high surface area to volume ratios

Quality fittings

Models

MODEL	MINILAB®	MAXILAB®1000	MAXILAB®2000
Description	2 part system <ul style="list-style-type: none"> • Mini Scrubber (above hood) • Holding Tank (in base cabinet) 	Stand alone	Stand alone
Dimensions, mm (L x D x H)	Mini Scrubber <ul style="list-style-type: none"> • 600mm x 600mm x 800mm Holding Tank <ul style="list-style-type: none"> • 1000mm x 500mm x 500mm 	<ul style="list-style-type: none"> • 700mm x 700mm x 1500mm Excluding skid and plumbing connections	<ul style="list-style-type: none"> • 900mm x 900mm x 1800mm Excluding skid and plumbing connections
Construction	PVC or PP using "hot melt" fabrication techniques		
Scrubbing Media	Tellerettes® Tower Packing - has a unique patented toroidal helix design that makes them dramatically more efficient than conventional packings in a wide range of mass transfer and particulate collections applications <ul style="list-style-type: none"> • High solid particle loading • Constantly renews and exposes liquid to the gas flow • High efficiency • Injection moulded Polypropylene 		
Mist Eliminators	Advancelab mist eliminators remove liquid entrainment from gas streams, providing high efficiency and low-pressure drops		
Viewing Windows	1	2	2
Chemical Pump	Included		
Duct Connections	250 mm	250 mm	Please advise factory

Upgrades available include:

- On-line pH apparatus
- Mixers
- Dosing pumps
- Remote control panels
- Building Management system tie in
- Maintenance programmes, please check with factory or local distributor

Warranty

Products Manufactured by Advancelab: Advancelab(S) Pte.Ltd., warrants products that it manufactures to be free from defects for a period of 12 months for parts, commencing from the date of shipment. Advancelab's sole responsibility is to repair or replace, at its option, any part of the product that proves defective or malfunctioning during this time limit. This warranty is void if the equipment is abused or modified by the customer, is operated outside Advancelab's operating instructions or specifications, or is used in any application other than that for which it is specified. This warranty does not include routine maintenance or service procedures, breakage, shipping damage, nor damage from misuse, intentional or unintentional abuse, neglect, natural disasters, or acts of God.

Freight Shortage or Damage: Upon receipt of any equipment from Advancelab, customer shall immediately unpack and inspect for damage or shortage. The customer shall not accept a damaged package or a short shipment until the carrier makes a "damage or shortage" notation on both the carrier's and customer's copy of the freight bill or delivery receipt. Service title passes when the shipment is loaded, so customer is responsible for filing and collecting a freight claim. Any replacement products must be ordered and paid for separately.

Generally, customers can improve the chance of collecting on a freight claim by following these procedures:

1. Formally requesting that the carrier inspect the shipment immediately upon suspecting damage or shortage to verify condition.
2. Notifying the carrier upon discovery of concealed damage and requesting an inspection within 15 days of receipt, both in person or phone and following up via mail.
3. Keeping the shipment as intact as possible, including retaining original packaging materials and keeping the product as close to the original receiving location as possible.
4. Holding salvage for disposition by the carrier.

All Claims: Advancelab (S) Pte.Ltd., expressly disclaims all other warranties, expressed or implied or implied by statute, including the warranties of merchantability or fitness for intended use. Advancelab is not responsible for consequential or incidental damages arising out of the purchase or use of the products supplied by Advancelab. Advancelab is not liable for damage to facilities, other equipment, products, property or personnel of others, or of their agents, suppliers, or affiliated parties, which is caused or alleged to have been caused by products supplied by Advancelab. In any event or series of events, Advancelab's total liability for any and all damages whatsoever is limited to the lesser of the actual damages or the original invoice cost of the items alleged to have caused the damage. The customer's sole and exclusive remedy for any cause of action whatsoever is repair or replacement of the non-conforming products or refund of the actual purchase price, at the sole option of Advancelab. All claims must be made in writing within 90 days of the date the product was shipped. Any claims not made within this time limit shall be deemed waived by the customer. Advancelab is not responsible for any additional costs of repair caused by poor packaging or in-shipment damage during return.

Warranty Returns: All warranty returns must be authorized in advance by Advancelab and approved by writing. Unless approved in advance for good reason, all returns must be in original condition, including all manuals, and must be packaged in original packaging materials. All returned goods are to be shipped to Advancelab, freight prepaid at customer's expense.

AdvanceLab has built a rock steady reputation for solutions where most fail. Since our establishment in 2003, we have positioned ourselves as the premier facility solution provider for the scientific industry; designing, building and delivering quickly and without fuss. We have also taken our brand of expertise globally; now with exports of laboratory casework, fume hoods, laminar flow cabinets and clean booths heading to 30 countries, covering all continents.
